

The screenshot shows a web browser window for the freeCodeCamp website. The URL in the address bar is freecodecamp.org/learn/b1-english-for-developers/en-b1-certification-exam/en-b1-certification-exam. The page title is "B1 English for Developers Certification Exam". A search bar at the top left says "Search 12,200+ news articles, tutorials, and books". The main content area has a dark background. At the top right of the content area, there is a "freeCodeCamp(A)" logo. Below it, two buttons are visible: "B1 English for Developers Certification (Beta)" on the left and "B1 English for Developers Certification Exam" on the right. A central message box contains the text "B1 English for Developers Certification Exam" and a note: "Congratulations, you have completed all the requirements to qualify for the exam." Below this, a section titled "Download the freeCodeCamp Exam Environment App" provides instructions: "To earn a certification, you must take an exam to test your understanding of the material you have learned. Taking the exam is absolutely free of charge." Further down, a section titled "Attempts" shows a table with one row of data: Date Taken (28/12/2025, 17:41:00), Score [%] (89.29%), and Status (Passed). At the bottom, a section titled "Exam Token" explains its purpose: "Your Exam Environment authorization token is used to log you into the desktop application." It also states: "It looks like you have a valid exam token. If you generate a new one, your existing token will be invalidated."

B1 English for Developers Certification Exam

Note
Congratulations, you have completed all the requirements to qualify for the exam.
